

Reybert Lacio

Senior Full-Stack Web Developer | Laravel Developer | Team Lead | Deployment Engineer

ABOUT ME

Experienced Full-Stack Web Developer with over five years of professional experience designing, developing, deploying, and maintaining enterprise-grade web applications using PHP (Laravel) and MySQL. Proven track record of successfully delivering customized School Management Systems, ERP solutions, PMO platforms, and Billing Systems for multiple educational institutions and organizations.

Experienced in leading development teams, conducting code reviews, managing Git workflows, overseeing production deployments, and providing technical leadership throughout the complete Software Development Life Cycle (SDLC). Strong background in Linux server administration, Apache configuration, SSL implementation, Docker-based development environments, and production system deployments.

Recognized for delivering reliable software solutions, leading successful client implementations, and providing end-user training to ensure smooth system adoption.

EDUCATION

UNIVERSITY OF CEBU 2021 – 2024

- Studied in Information Technology Major in Computer Programming

CORE COMPETENCIES

PROGRAMMING & FRAMEWORKS

- PHP
- Laravel Framework
- JavaScript
- AJAX
- jQuery
- Bootstrap
- HTML5
- CSS3

DEVOPS & DEPLOYMENT

- Ubuntu Server
- Apache Web Server
- SSL Installation
- Domain Configuration
- Docker
- WAMP
- XAMPP
- LAMP Stack

VERSION CONTROL

- Git
- GitHub
- GitLab

DATABASE

- MySQL

PROFESSIONAL EXPERIENCE

Team Lead / Full-Stack Laravel Developer

JULY 2021 – PRESENT

Key Responsibilities

- Led a team of developers in designing, developing, and maintaining enterprise web applications.
- Conducted regular code reviews to ensure code quality, maintainability, and adherence to development standards.
- Facilitated technical meetings, sprint discussions, and task planning.
- Collaborated with stakeholders to gather requirements and deliver customized software solutions.
- Managed feature development, issue resolution, and production support for multiple clients.
- Coordinated data migration activities during system implementations.
- Ensured timely software delivery while maintaining high-quality standards.

Full-Stack Web Development

Successfully developed and maintained:

- Customized School Management Systems
- Enterprise Resource Planning (ERP) Systems
- Project Management Office (PMO) Systems
- Billing Systems
- Administrative Web Portals
- Custom Business Applications

Responsibilities included:

- Backend Development using Laravel
- Database Design and Optimization
- Frontend Development
- API Development
- Feature Enhancement
- System Maintenance
- Bug Resolution
- Performance Optimization

Production Deployment & Server Administration

Independently managed end-to-end production deployments for multiple School Management Systems.

Responsibilities included:

- Ubuntu Server setup
- Apache Web Server configuration
- Domain configuration
- SSL certificate installation
- Production environment setup
- Application deployment
- Database deployment
- Server configuration
- Deployment verification
- Go-live support
- Post-deployment maintenance

SOFTWARE DEVELOPMENT

- Full Stack Development
- RESTful APIs
- System Integration
- ERP Development
- School Management Systems
- PMO Systems
- Billing Systems
- Database Design
- Bug Fixing
- Performance Optimization

LEADERSHIP

- Team Leadership
- Code Reviews
- Sprint Planning
- Technical Mentoring
- Feature Planning
- Client Support
- User Training
- Requirements Analysis

LANGUAGE

- English (Proficient)
- Tagalog (Native)
- Cebuano (Native)

TECHNICAL TOOLS

Development

- Laravel
- PHP
- MySQL
- HTML5
- CSS3
- Bootstrap
- JavaScript
- AJAX
- jQuery

Version Control

- Git
- GitHub
- GitLab

Infrastructure

- Ubuntu
- Apache
- Docker
- WAMP
- XAMPP
- LAMP

Client Implementation & Training

Provided technical implementation support for multiple educational institutions by:

- Conducting system demonstrations
- Performing user acceptance support
- Training teachers and school personnel
- Conducting annual school-year orientation sessions
- Assisting clients during system onboarding
- Providing post-deployment technical support

SELECTED PROJECT EXPERIENCE

School Management Systems

Successfully participated in the deployment and implementation of customized School Management Systems for educational institutions, including:

- Mary Chiles College (Manila)
- Nissi Academy International (Cebu)
- Christifidelis School (Cebu)
- Academia de San Isidro Labrador (Cebu)
- Academia de San Jose (Cebu)
- Schildknecht School (Cebu)
- Bright Academy International (Cebu)
- Colegio del Santo Niño (Cebu)
- Childlink Learning Center (Cebu)

Responsibilities:

- Full production deployment
- Server setup
- System implementation
- Client support
- User training
- Feature customization
- Post-deployment maintenance

PROFESSIONAL HIGHLIGHTS

- ✓ Over 5 years of professional Laravel development experience.
- ✓ Led software development teams and technical initiatives.
- ✓ Successfully deployed multiple enterprise systems into production.
- ✓ Experienced in Linux server administration.
- ✓ Conducted code reviews and mentored developers.
- ✓ Delivered ERP, PMO, Billing, and School Management solutions.
- ✓ Managed Git workflows using GitHub and GitLab.
- ✓ Conducted annual system orientations for teachers and school staff.
- ✓ Experienced in production deployment, server configuration, and post-launch support.
- ✓ Strong understanding of the complete Software Development Life Cycle (SDLC).
